

**Elizabeth Glaser  
Pediatric AIDS Foundation**  
Fighting for an AIDS-free generation

**CWA**

Photo by Felix Felipe/EGPAF, 2023

Esmeralda is a 5-year-old girl living in Mozambique. She faced dire health consequences due to her difficulty adhering to treatment. With EGPAF's support, her viral load is now undetectable, and she is healthy and happy.

**Just \$12 can help EGPAF provide one month of care and treatment to an HIV-positive child.**

Care and treatment programs include medical support, medication, and counseling.

With CWA by our side, the Elizabeth Glaser Pediatric AIDS Foundation continues to provide critical care to children, youth and families around the world. Every day we fight for an AIDS-free generation, and your support moves us forward.

***Thank you for your partnership!***
