

PROJECT 2025

A TAKEOVER BY TRUMP & POWER HUNGRY CORPORATIONS

Project 2025 is a nearly 1,000-page handbook written by Trump Administration officials that details a **dangerous, extremist agenda** to roll back our rights and put more power in the hands of CEOs and corporations.

SLASHING LABOR RIGHTS

The plan calls for **increasing corporate control over workers** by gutting worker protections and making it harder for workers to join unions. It calls for ending public sector unions, allowing management-run fake unions, repealing all prevailing wage laws, and a lot more. (PAGES 82, 599, 602, 604)

*"Congress should also consider **whether public-sector unions are appropriate in the first place.**" (Page 82)*

CUTTING JOBS

The plan calls for ending funding for high-speed internet buildout, which would mean **less work for CWA members.** (Page 855)

DISMANTLING CHILD LABOR PROTECTIONS

The plan addresses labor shortages by eliminating rules that prevent teenagers from working in "inherently dangerous jobs." (Page 595)

RAISING COSTS

The plan calls for **privatizing Medicare** and would result in **higher costs for prescription drugs.** (Page 465)

ELIMINATING OVERTIME ELIGIBILITY

The plan calls for lowering the overtime salary ceiling, which would **take overtime away from 4.3 million workers.** (Page 587 and 592)
