Marlene H. Dortch, Secretary  
Federal Communications Commission  
45 L Street, NE  
Washington, DC 20554

**RE: IP-Enabled Services, WC Docket No. 04-36; Reducing Barriers to Network Improvements and Service Changes, WC Docket No. 25-209; Accelerating Network Modernization, WC Docket No. 25-208; Advancing IP Interconnection, WC Docket No. 25-304; Reforming Legacy Rules for an All-IP Future, WC Docket No. 25-311**

Dear Ms. Dortch:

Please find attached to this letter a petition signed by more than 3,500 people, including nearly 1,700 members of the Communications Workers of America (CWA) who work in telecommunications, urging the Commission to act swiftly to classify Voice over IP (VoIP) service as a Title II telecommunications service to ensure Americans have access to reliable, high-quality voice service.

CWA is a labor union representing workers in telecommunications and technology, including tens of thousands who build, upgrade, and service wireline and wireless telecommunications networks. CWA also represents workers in news media, broadcast and cable television, the airline industry, public service, manufacturing, and other fields.

CWA has long supported strong federal and state oversight of VoIP. In 2022, a coalition including Public Knowledge and CWA filed a Petition for Declaratory Ruling seeking Title II classification for VoIP. Without Title II classification, the Commission lacks clear authority to

mandate interconnection, prevent call blocking, protect rural call completion, and ensure continued 911 access once the TDM-based Public Switched Telephone Network disappears.

As the Commission moves toward the expedited adoption of proposals by large ISPs to complete the transition to all-IP networks by the end of 2028, it will need to resolve the current lack of classification for VoIP one way or another. If the Commission is to retain its ability to ensure Americans' access to voice service, it must classify VoIP as a Title II telecommunications service.

We appreciate the Commission's critical role in ensuring all Americans have access to advanced communications and thank you for considering our appeal.

Sincerely,

A handwritten signature in black ink that reads "Claude Cummings Jr." with a stylized flourish at the end.

Claude Cummings Jr.  
President  
Communications Workers of America  
501 3rd St NW  
Washington, DC 20001  
(202)434-1198

To: Federal Communications Commission

Voice over IP (VoIP) is the future of phone service. Without proper oversight and regulation, emergency services like 911 will be negatively impacted and universal service will be at risk. The FCC must make VoIP a Title II telecommunications service so the agency can ensure everyone has access to reliable, quality voice service.
