

June 2, 2026

Dear Representative,

On behalf of the members and officers of the Communications Workers of America (CWA), I am writing to share with you and request your support for CWA's Worker Power Agenda. As working families face continuously rising costs and increasing economic pressures caused by unchecked corporate greed and money in politics, this package of legislative priorities will directly address the issues important to our members to improve their daily lives.

It is increasingly clear that billionaires and corporations have come to dominate our political and economic systems. As a result, working families have been systematically priced out of essentials. The costs of healthcare, groceries, transportation, and housing have skyrocketed while wages have largely remained stagnant.

As workers struggle to make ends meet, multinational corporations and the billionaire class reap record profits and benefit from historic federal tax breaks. Rather than supporting policies that put American workers first, our government has enacted legislation that allows companies to exploit working people – offshoring their jobs, attacking their union rights, and drowning out their voice in our democracy. Now is the time to demand more and finally put workers first. That is why CWA is launching our Worker Power Agenda. The legislation in this package would protect good jobs and strong unions, ensure affordable healthcare, end corporation exploitation of workers, and fix our broken political system.

For decades, the wealthy have worked overtime to chip away at the power of working people, it is past time for working people to reclaim that power. These policies will bring us several steps closer to a more balanced democracy, where the loudest voice in the room is that of working families. We are proud to support these essential bills and urge you to cosponsor the policies outlined in this legislative package.

Sincerely,

A handwritten signature in cursive script that reads "Daniel J. Mauer".
