Julian Roque,

Good morning , has permit Project 2018-H-491 -110 Commence work? If so, was this private property fence damage during you construction? As you can see this permit work is right at this location. If this was done during your contractor's construction please do communicate with Mr. [REDACTED] His contact information is below.Thank you

Wayne [REDACTED]

Good Morning, Valerie: Can you please review this e-mail track, and the attachments, and let me know if you can identify the responsible party?

A private fence was damaged during underground line installation, but by who? FDOT ITS flags marked the ground, but ITS says they are not responsible. DOT Permit No. 2018-H-491-110 is referenced below.

This issue has been ongoing since July. Thanks--dar

Hi Darlene,

I provided this to you some time ago. I have went through all of the companies mentioned in this extensive email chain. Everyone says it should not have their names mentioned due to a variety of circumstances. I have to come back to you due to the initial information Please see the information below provided by Verizon. I'm asking if you can further research this since in the end FDOT flag markers were the ones found at the site of the damage. Any other company information was provided by you and nothing is matching up to the work performed and markers left on site.

Thanks again,

Denise

Subject: RE: Broken Fence - [REDACTED]

Good Afternoon Mrs. Greenstein,

I have verified with the Verizon field technicians and there is no Verizon cable going on SW 1st Court from 21st Terrace to 22nd Avenue. The current cable crosses I-95 just north of the rail platform into the rail road right-of-way then goes north and south; not leaving the rail property.

I have included a previous email from July that included a map showing the Verizon facilities going north and south along the railroad property.

The permit number on the provided Sunshine Ticket was issued by FDOT. I have included a screenshot below of the permit applicant.

Results 1 through 1 of 1

Execution Time: 10/11/2018-03:43 PM		Permitted Locations Report Results	
Permit Type ↑	Permit Number	Received Date	Permit Status
Utility Permit	2018-H-491-110	02/26/2018	Approved
State Road	County	Section	Sub Secti
SR 842	Broward	006	000

If this work was being done by Fibernet Direct it might have been done for the wireless group and Verizon should never have been mentioned on the Sunshine Ticket and that is an internal issue for Fibernet Direct.

Thank you,

Good day Mr. Kowaleski and Mr. Mars,

I'm emailing you from the City of Fort Lauderdale City Manager's office. Our neighbor Wayne [REDACTED] copied in this email had some work done behind his fence in which the fence was damaged. After a long search we could not find the correct party which I believe is your company. Please see the attached Sunshine call before you dig information. Can your teams please work with Mr. [REDACTED] in regards to the damage? He since repaired the fence and would like to be reimbursed. Mr. [REDACTED] mentioned the wires are still pushing under his private fence currently. I ask that you work directly with Mr. [REDACTED] for resolution.

Mr. [REDACTED] please see the contact info below.

Good Afternoon Dar,

We have an existing fiber optic duct bank (1-2" HDPE Conduit) along the fence that was installed by World Fiber Technologies in January of 2010, and is why you see our locate flags. Another push button contract also installed some conduits in that area that completed March of 2016. Due to the work being performed now, it is not related to the Arterial ITS system. It may be work being performed under the I-95 Express lanes project. I have cc'ed our interstate group to see if they are aware of any work being performed in that area, my apologies but I only maintain and track Arterial ITS related projects.

Hi Denise,

Please see below and attached. Not sure who's doing the work just outside Mr. [REDACTED]'s fence although the signs say DOT. This is the 2nd time his fence was knocked down by workers installing pipes/wires. He propped the fence up himself.

Can we find out who is responsible and have them repair the fence.

Thank you.

Hi Maxine,

Thank you for taking my call earlier.

I've attached 12 photos of the damaged fencing. The first 4 pics are from our side of the fence, you can see where the soil and gravel has been pushed underneath the fence and pulled the boards away and broken them.

The other 15 pics are from the road side, they've been digging up and laying down new gray conduits all along the backside of our fence.

The only telltale signs of who was digging are the small orange flags in the ground, they say FDOT.

The address for the property is:

[REDACTED]
Fort Lauderdale [REDACTED]

If you can help us have this taken care of we would be very grateful to you.

Best regards,

Wayne [REDACTED]
