

My Name is Tim Laskowski. I have been a member of CWA since 1998 giving me near 20 years of service. I became a Steward in Dayton Ohio Local 4322 in the early 2000's until i was moved to Columbus Ohio and continued as a steward in 2008.

I have strong Union values developed both personally and through my association as a CWA Steward and member as well as my membership in the AFM American Federation of Musicians local 101-473 for over 10 years as drummer. My pro union values include seeking the most beneficial outcomes to local issues, working with the members and management to improve working conditions, and training our members when i can and connecting them to bargained for training solutions when needed, so we can all take advantage of what has been won on our behalf. I also actively encourage members to participate in the programs that directly and financially benefit them.

In addition to these values and the desire to negotiate a strong, fair contract, I have the support of Local 4320 Executive Board. Beginning in 1998, Local 4320 has been instrumental bargaining nationally with Lucent, then Avaya to obtain several successful contracts. Local 4320 continues to place members and officers on various bargaining teams, Mobility and AT&T Core for example, within CWA. My association with past and present bargaining team members will only strengthen our ability to achieve fairness in a new labor agreement.

For these reasons, I ask you to vote for me.
